Detailed Action

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: With respect to claims 1-6, the best prior art to US 5,247,182 to Servant et al do not teach the use of polydispersed as claimed in the instant invention. While Servant et al do indeed use particulate matter in the claimed size range, a polydispersion is neither explicitly suggested or implied by the relied on prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
